About Me

I'm a self-motivated full-stack software engineer passionate about building scalable web and AI-driven solutions. I adapt quickly to emerging technologies and thrive in dynamic, fast-paced environments. With a strong learning mindset, I excel at solving complex problems and collaborating across teams to deliver impactful results. I aim to contribute to innovative projects while continuously advancing my technical expertise.

Education

University of Moratuwa, Sri Lanka January 2023 – Present
B.Sc (Hons) - Information Technology

Kinniya Central College, Trincomalee, Sri Lanka April 2018 – July 2021
GCE Advanced Level – Physical Science (District Rank: 28)

Professional Experience

Full Stack Software Engineer – SnapWerks, KINIT (Pvt) Ltd *Aug 2025 – Present*
SnapWerks — Multi-country job & service platform (Sri Lanka, Netherlands, GCC, Singapore)

- Spearheading development of SnapWerks, a multilingual, modular job & service marketplace spanning 9 countries.
- Building core backend services with **Symfony**, Twig, and Doctrine; enforcing multi-tenant isolation and localization.
- Developing mobile apps (Android & iOS) with **Hotwire Native**, integrating native views with Turbo Streams and Frames.
- Engineering dynamic UIs using **Stimulus.js**, **Tailwind CSS**, and **Turbo**, enabling reactive, no-JS SPAs.

Full Stack Software Engineering Intern – SnapWerks, KINIT (Pvt) Ltd *Feb 2025 – Jul 2025*

- Assisted in developing core modules for SnapWerks using **Symfony**, Twig, and PostgreSQL.
- Contributed to frontend features with **Stimulus.js** and **Tailwind CSS**, improving UI responsiveness.
- Supported AI-driven job-service matcher by preparing training datasets and refining NLP pipelines.
- Collaborated with senior engineer on E2E testing workflows using **Cypress**.

Technical Skills

- **Programming Languages:** PHP, Python, Java, C, JavaScript
- **Frameworks and Tools:** Symfony, Django, Laravel, Flask, React, Vite, Next.js, Stimulus JS
- **Databases:** PostgreSQL, MongoDB, SQLite
- **Machine Learning:** Supervised Learning, OpenCV, TensorFlow
- **Testing:** Cypress, Postman
- **Version Control:** Git, GitHub, GitLab

- **Project Management:** Jira, Trello
- **Languages:** English (Fluent), Tamil (Native), Sinhala (Conversational)

Key Projects

SnapWerks – Internet Service Marketplace

snapwerks.lk snapwerks.nl

Technologies: Symfony, Twig, Stimulus JS, Hotwire Native, Cypress, PostgreSQL, Docker Microservices, AI Matching

Built a scalable multi-tenant platform for Sri Lanka, Netherlands, and GCC. Features include multilingual UI, localized payments, and AI-driven job-service matching tailored to regional contexts. Enabled rapid expansion across 9+ countries.

RevX – Employee Performance & Review System

[GitHub](#)

Technologies: MongoDB, Express.js, React.js, Node.js, JWT, NextAuth, NodeMailer

Developed as a second-year software project, RevX features role-based authentication with JWT, secure session management via NextAuth, and real-time dashboards for goal setting, feedback tracking, and performance insights. Implemented secure user management including **base64-encoded profile image uploads** and **hashed password storage** with password recovery functionality.

Fareed Motors – Modern POS System (Ongoing)

Technologies: Laravel, Blade, Livewire, PostgreSQL

Developing a tailored POS system for a vehicle dealership with inventory tracking, invoice generation, dynamic reporting, and secure multi-user authentication.

Service Prompt AI – Description & Classification Generator

[GitHub](#)

Technologies: Flask, Gradio, Hugging Face Transformers, Threading

AI tool to classify service prompts and generate natural language descriptions. Uses DistilBERT for classification and GPT-based models for text generation via a fast, interactive interface.

JobResumeAnalyzer – Resume/Job Smart Matcher

[GitHub](#)

Technologies: Django, Machine Learning, NLP, PDF Parsing, Semantic Analysis

Analyzes resumes and job posts to extract keywords, compare semantically, and score compatibility based on skills, experience, and language similarity.

Certifications

-
- **Advanced Learning Algorithms** – DeepLearning.AI (Coursera)

Jan 2025

Credential: X8VYUQE2QBJ0

Skills: TensorFlow, Neural Networks, XGBoost

- **Supervised ML: Regression and Classification** – DeepLearning.AI (Coursera)

Dec 2024

Credential: VSOB4TEU7C8T, **Grade:** 99.66%

Skills: Linear Regression, Gradient Boosting, Supervised Learning

- **Career Essentials in Generative AI** – Microsoft (LinkedIn Learning)

Sep 2024

Credential Link

Skills: Generative AI Fundamentals, Ethical AI Use
